

**NOTICE OF COMPLETION – DESIGN AND CONSTRUCTION REPORT**  
**Detail Design and Class Environmental Assessment for the Highway 3 Widening in the Town of Essex**  
**From 0.8 km west of Ellis Side Road easterly to 2.2 km east of Essex County Road 23**  
**(Contract 2020-3006)**

**The Project**

The Ontario Ministry of Transportation (MTO) has retained Coco Paving Inc. (Coco) and Dillon Consulting Limited (Dillon) to complete the Design-Build (DB) contract for the Class Environmental Assessment (EA), detail design and construction of the Highway 3 Widening in the Town of Essex.

The project was completed following the *Class Environmental Assessment (EA) for Provincial Transportation Facilities* (2000) as a Group 'B' undertaking. Construction began on portions of the project in 2021 and is anticipated to be completed in 2023.

To allow construction to move ahead in an expedited manner, multiple construction contracts are being produced. Prior to each construction contract, a Design and Construction Report (DCR) is being prepared to document the environmental impacts and mitigation measures required for construction. Two DCRs were completed and published in early 2021. This Notice pertains to the third DCR for the project.

The third DCR is now available for public review, as outlined below. The DCR outlines the design of the project and environmental mitigation measures and monitoring provisions that have been incorporated into the construction contract to date.

The DCR will be available for a 30-day comment period between **January 27, 2022** and **February 28, 2022** at the project website: [www.hwy3.ca](http://www.hwy3.ca)

A hard copy of the DCR will not be provided at public review locations. If you wish to review the DCR and require an alternate format, you may contact one of the project team members listed below to discuss review options.

Interested persons may provide written comments to our project team between **January 27, 2022** and **February 28, 2022**. All comments and concerns should be sent directly to:

In addition, a request may be made to the Ministry of the Environment, Conservation and Parks for an order requiring a higher level of study (i.e. requiring an individual/comprehensive EA approval before being able to proceed), or that conditions be imposed (e.g. require further studies), only on the grounds that the requested order may prevent, mitigate or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. Requests on other grounds will not be considered. Requests should include the requester contact information and full name for the ministry.

Requests should specify what kind of order is being requested (request for additional conditions or a request for an individual/comprehensive EA), how an order may prevent, mitigate or remedy those potential adverse impacts, and any information in support of the statements in the request. This will ensure that the ministry is able to begin reviewing the request efficiently. The request should be sent in writing or by email to the Ministry of Transportation Project Engineer listed above and to:

Minister of the Environment, Conservation and Parks  
Ministry of Environment, Conservation and Parks  
777 Bay Street, 5th Floor  
Toronto ON M7A 2J3
